PROFESSIONAL SUMMARY

I am an undergraduate student studying at the University of Gloucester. I have taken on many managerial/leadership roles at my time studying here like project manager of a small team who competed in the Renesas MCU car rally in Nuremberg, Germany. Along with these new found leadership skills I am a effective and competent game/application programmer looking for a position that will allow me utilize my skills whilst gaining new ones to advance my portfolio.

EMPLOYMENT HISTORY

Camp Counselor/Day Camp Counselor/Lifeguard at Camp Jornc YMCA,
Manitowish Waters

June 2017 – August 2017

During my time at camp I worked closely with the children in the day camp program to provide them with the best experience in the safest manner I could. My tasks included planning activities for the children, lifeguarding for them, helping them develop better traits along with encouraging the inclusion of the differently abled children into the groups.

McDonalds team member at Road Chef services (McDonalds),
Monmouthshire

December 2015 – March 2016

My role was mainly on grill duty but also included on floor service and cleaning. The job required many skills including teamwork, time management and efficient resource allocating skills.

Teaching assistant as a Maths tutor at Newport city council, Newport

September 2014 – June 2015

My role in this job was to help tutor year 10 students in Maths for an hour every week after school. I had to conduct exercises and teach them learning techniques and topics. To do this job required great interpersonal skills and a good understanding of the GCSE Math's course and Math's in general.
